

On November 7, 2024, YGL participated in the "Empowering Growth: Strategies to Future-Proof Your Business" seminar, showcasing their Smart Warehouse, Smart Manufacturing, E-Invoice, and ESG Carbon Energy Management Platform solutions. YGL's solutions highlighted ways businesses can enhance operational efficiency, sustainability, and resilience, supporting long-term growth and adaptability in an ever-changing economic environment.

On November 13, 2024, an engaging E-Invoice Course & Workshop was held in Kuala Lumpur, providing participants with invaluable hands-on experience in using a top-tier e-invoicing platform. The workshop featured a practical, step-by-step approach to mastering digital invoicing, empowering attendees to shift seamlessly from traditional invoicing methods to an efficient, compliant e-invoicing solution. With in-depth insights and essential tools, participants gained the confidence to optimize their billing processes, making digital invoicing easy, accurate, and sustainable for the future of business.

On November 17, 2024

YGL CEO Mr. Yeap Kong Chean was honored to speak at the **Penang International Green Conference and Exhibition (PGIGCE) 2024**, organized by the Penang Green Council (PGC). Held at SPICE Convention Centre's Function Room 7, his presentation titled "Utilising Digital Twins for Sustainable Operations" explored cutting-edge technology's role in fostering sustainable business practices.

Mr. Yeap shared insights into how digital twins optimize energy usage, reduce operational inefficiencies, and align organizations with global green standards. The event brought together industry leaders, innovators, and policymakers to discuss sustainable solutions for a greener future.

YGL and MIMOS Discuss Collaboration at MIMOS ITIC

MIMOS ITIC serves as a transformative hub for the semiconductor industry, supported by strategic initiatives like the Semiconductor Research Consortium and the MIMOS Academy. These efforts are pivotal for fostering long-term industrial growth and talent development in Malaysia.

This collaboration aligns with the Ministry of Science, Technology, and Innovation's (MOSTI) vision of strengthening Malaysia's semiconductor technology ecosystem. By enhancing capabilities in Smart Warehouse and Logistics, the partnership aims to bolster the country's standing in the global Electrical and Electronics (E&E) sector.
